

Karissa Smith

WEEK 1- Status

1. What did I do last week?
 - gathered as a group and brainstormed ideas for a Capstone project, we came up with the idea of a schedule-based Web application used to connect with friends
 - worked together to construct a Proposal for our project
 - started researching information that may be useful while building out project
 - set up our git repository and practiced using branching
2. What am I doing next week?
 - Beginning to construct our Prototype
 - Doing more research for useful information
3. Are there any impediments/roadblocks in your way?
 - Possible conflicting work schedules
 - Planning our database tables
