Status Report Week 2

What did I do last week?

- Prototype finished
- Narrowing down application scope
- Database setup
- Name the project
- Color palette picked

What am I doing this week?

- Database Design
- Start Implementation
- Login and Sessions
- Tables made

Are there any Impediments/Roadblocks in my way?

- Foreign keys are not my strong suit for databases
- Learning more on how many tables we will need
- Figuring out even after the prototype how the final will layout
