Karissa Smith

WEEK 2- Status

1. What did I do last week?
    - laid out a general idea of what we wanted out website to include
    - constructed our Prototype and began brainstorming design ideas
    - began planning our tables for our databases
2. What am I doing next week?
    - beginning database design and implementation
    - beginning the technical design of our website

3. Are there any impediments/roadblocks in your way?

    - Figuring out how many tables we may need for this project
    - Determining where/how these tables will be connected
